

Organ-X Insect Control

Organ-X-Natural Powder

Organ-X Natural Insect Killing Powder is a naturally derived formulation that is non-toxic and very effective in the control of crawling insects; including red mite, bed bugs, ants, fleas, spiders, as well as grain storage pests.

The power of nature has been harnessed in this bottle so that pests can be effectively controlled without using a toxic product. Organ-X Natural Insect Killing Powder is particularly effective in the control of red mites and bed bugs. The product is safe to use on and around animals. For best results apply liberally to cracks, crevices and along the run of insects or directly to the animal. Leave the powder undisturbed, however the unique properties of this formulation means that if the powder gets wet it will be just as effective when it becomes dry again.

Key Features

- Kills all crawling insects
- Effective within 24 hours
- Ready to use puffer pack
- Professional formulation
- Unlimited shelf life
- Long residual action

Naturally kills crawling insects including;

Bed Bugs

Organ-X Natural Insect Spray is highly efficacious against Bed Bugs and they cannot develop any resistance towards the product.

Red Mite

Tests showed that with an application rate of 1g/m² that 100% of mites were killed in 24 hours and at an application rate of 50g/m² 100% of red mites were killed within 4 hours

Organ-X-Natural Spray

This ready to use spray is based on naturally sourced ingredients and is particularly effective against the control of all crawling insects including red mite and bed bugs. The spray has been specially manufactured for use in agricultural buildings and around the home. This product offers a natural and effective alternative and is safe to use around animals (not to be applied to animals directly).

For best results apply generously to problem areas, paying particular attention to corners cracks and crevices. It can be applied to cages, feed troughs, egg conveyors, animal pens and nesting boxes as well as in domestic environments to control all crawling insects.

Key Features

- Kills all crawling insects including red mite and bed bugs
- ideal for use in agricultural housing and around the home
- A natural alternative that will work where other treatments have failed
- Long residual action

Naturally kills crawling insects including;

Bed Bugs

Organ-X Natural Insect Killing Spray is highly efficacious against Bed Bugs and they cannot develop any resistance towards the product.

Red Mite

Organ-X Natural Insect Killing Spray is very useful for inclusion in a rotational control programme as an alternative to other treatments; the use of Organ-X Natural Insect Killing Spray will enable the management of red mite where control has been difficult with other treatment methods.
